

ARE YOU TIRED OF MISSING TEETH OR LOOSE DENTURES?

MINI DENTAL IMPLANTS COULD BE THE SOLUTION FOR YOU!

WHAT ARE MINI DENTAL IMPLANTS?

Mini dental implants are titanium screws that can replace the root of missing teeth or stabilize loose dentures. Mini implants are thinner in size making them easier to fit into resorbed bone. For dentures and partials, a housing is attached precisely inside your appliance to hold it in place securely with an o-ring and functions like a button, snapping in and out. Mini dental implants may also be an excellent option for replacing missing teeth as a more affordable option than standard dental implants.

OUR IDEAL PATIENT

- Missing Teeth
- Loose Dentures
- Tired of Adhesive

REPLACE MISSING TEETH

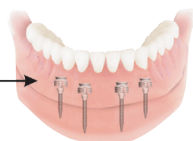

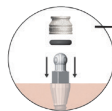

Implant Placed

Smile Restored

SECURE LOOSE DENTURES
